Favourite Quotes:

“If you want to hear it all, and I mean every last bit of it, plunk down your pocketbook on a Bryston BDA-3. You will not regret it.”

“These are examples of some of the measurements that I took to put the Line Linearity chart together. A series of fifteen measurements of a 24-bit, 1 kHz tone beginning at -20 dBFS and getting progressively lower in level to -150 dBFS were taken.

This defines “dead quiet.”
